## Recommerce Expo 2020

### Post Show Report

6-7 March, The Lalit Ashok, Bengaluru

India's largest exhibition and conference for refurbished electronics and e-waste management

Organised by

# About Recommerce Expo

Recommerce Expo is a unique platform, the first of its kind in Asia, bringing together individuals and businesses engaged in all aspects of e-waste management and refurbishing electronics to promote the reuse of electronics and minimise e-waste.

The platform brings together individuals, vendors, distributors, OEM's and other customers active in the area of reuse of electronic products. The expo is a yearly event comprising a two-day exhibition and conference that gives the opportunity to display and learn about refurbished electronics, debate existing challenges in the industry, and network with people working in this rapidly-growing sector.

# Recommerce Expo 2020

Recommerce Expo 2020 was a very successful event, in that it achieved its objective to connect people and businesses involved in the space of reuse of electronics and brought the sector one step closer to becoming more organized.
