

Capacity building program – Employee Awareness

Coming together for a Green Planet – Employee Awareness & Ewaste Collection Drive.

One such example when Siemens Ltd partnered with Zecomy to pursue environmental stewardship through employee engagement for disposal of ewaste. On 11th and 12th October 2022, Siemens partnered with Zecomy to bring employee awareness on responsible disposal of ewaste across JLL & DLF locations in Gurugram.

Each participant became Zecomy's certified "Green Warrior"! We appreciate Siemens' initiative to Make Sustainability Personal in its employee landscape.

Zecomy being a digital enabler of circular economy, all the collected ewaste was sent to a reputed recycler partner who refurbish, recycle in an environment friendly process. Zecomy encourages all the organisations to partner with Zecomy to enable CSR as well Circularity.
